REMARKS

By the present amendment, objections to the disclosure have been overcome in the specification by the amendments thereto presented herein. In addition, claim 5 has been cancelled so that the objection to the specification and drawings as not depicting an integrally molded handle have been overcome. Therefore, the requirement for a drawing correction is obviated.

Applicant respectfully submits that the objection to claim 1, line 12, as not specifying an associated function for the sealing means recited therein should be withdrawn. Line 12 clearly states that the sealing means is a toilet and sink drain hole sealing
